

I heard a Sinclair rep say on TV that they want Kerry to respond to this outrageous airing of issues that are nearly 40 years old. Of course, Kerry will have to stop his campaigning in the last three weeks of the election to respond. Can't these people see how unfair and ridiculous that is? No number of fresh-faced spokespeople can make this plan to air Vietnam war veterans complaining of how their stay in VC prisons was lengthened by the anti-war movement into a current issue. Many people opposed the war, and that is what got us out of it and these prisoners returned. To bring this all up now is an obvious attempt to influence the election and is grossly unfair. Sinclair should be reprimanded for such outrageous behavior.
